

# CAPABILITY STATEMENT

Productive Resources (PR) is a Woman-Owned Engineering Firm offering a wide range of Professional Services in support of product development, manufacturing, and downfield product support.

## QUICK FACTS

**DUNS:** #080734339  
**CAGE CODE:** 7MY78

## NAICS CODES

- 541330:** Engineering Services
- 541340:** CADD Services
- 541611:** General Management Consulting Services
- 541690:** Other Scientific & Technical Consulting Services
- 541715:** R&D in the Physical, Engineering, & Life Sciences (except Nanotechnology & Biotechnology)
- 541990:** Other Professional, Scientific, & Technical Services
- 561311:** Employment Placement Agencies
- 561320:** Temporary Staffing Services
- 561499:** All Other Business Support Services

## SECRET LEVEL FACILITY CLEARANCE

## INDUSTRIES PR SERVES

- Agriculture Equipment
- Automotive
- Construction Equipment
- Heavy Duty Mobile Equipment
- Medical & Healthcare
- Military & Defense
- Energy
- Consumer Products
- On/Off Highway Diesel

## PROGRAM SERVICES

- ◆ Cost Reduction
- ◆ Product Design
- ◆ Concept Development
- ◆ FEA/Design Analysis
- ◆ Plant & Machine Layout
- ◆ Modeling & Detailing
- ◆ Test & Evaluation
- ◆ Project Management
- ◆ Technical Writing

## ENGINEERING DISCIPLINES

- ◆ Mechanical
- ◆ Routed Systems
- ◆ Design & Drafting
- ◆ Manufacturing
- ◆ Quality
- ◆ Controls
- ◆ Electrical
- ◆ Embedded Software

## DIFFERENTIATORS

- ◆ Faster Time to Market
- ◆ Better Products
- ◆ Flexibility to Lower Cost
- ◆ Cross Functional Sustainment Support
- ◆ Cross Industry Perspective to Leverage Established Best Practices
- ◆ Broad Footprint of Deployable Resources

## PAST PERFORMANCE EXAMPLES

Project Type	Customer	Budget Duration	PR's Scope of Work
Layout Services	Fortune 500 HD Equip Manuf	\$350K 1 yr	Controlled, managed, audited, & created factory layouts for manufacturing operations to prepare multiple locations for new product introduction.
Product Design	Industrial Equipment	\$750K 12 mo.	Redesigned industrial equipment (rock crusher) to next tier emissions, modernized controls, improved overall packaging and improved reliability of machine. Full development and prototype performed in our design center.
Supply Chain	Defense	\$1.5M 3 yrs.	Utilized PR's process, led a team of regional deployed quality engineers to work with Tier I suppliers for a major defense manufacturer to reduce defects and improve quality during program ramp up and beyond. Managed supplier continuous improvement.
Program Management	Heavy Equipment Manuf	\$6M 4 yrs.	Managed a multi-year multi-site development of a complete and complex product development through R&D, test, manufacturing, and deployment. This complex program involving dozens of complex systems coming together offered a unique program management challenge as the diverse set of teams needed to pull together the final product. In ramp up of the program, a number of PMO professionals needed to be onboarded and/or trained to ensure program success across the four year time frame.
